Value In-Kind (VIK) are goods or services provided to SONH at no cost or at discounted rate. For a donation to be considered VIK it must be either value added or budget relieving.

- A value added VIK means that, although SONH would not purchase the item without the donation, it will make our event better. Home Depot, for example, donates bird house for our athletes to assemble at our State Summer Games. This donation is a value added VIK.
- A budget relieving VIK means that SONH will not need to purchase a budgeted item because of the donation. If a facility waives or discounts their rental fee, that is an in-kind donation.
